

LONGO

Largest Independent Electrical-Mechanical Sales & Service Firm in the Tri-State Area

CENTRIFUGAL COMPRESSORS FOR OIL FREE ENGINEERED AIR.

Superior design and execution supported by professionally, trained sales and service

In food and beverage processing, packaging, pharmaceutical manufacturing, electronic component fabrication, mining operations, and many other fields, wherever there is a requirement for engineered air, PAP PLUS centrifugal compressors from FS-Elliott offer an exclusive, purpose-built package of unparalleled benefits.

- In addition to the traditional air applications, FS-Elliott is the leader in providing API 672 compressor packages. With our experienced engineering staff and vast installation base, we customize our compressor package designs to meet client specifications and demanding conditions.
- API 672 compressor packages are yet another example of FS-Elliott providing true engineered air where it really counts.
- These energy efficient machines not only save power, they save manpower - with reliability and ease of maintenance that let you stay focused on your business.
- PAP PLUS compressors deliver clean, 100% oil-free engineered air, you can rest easy knowing your air lines, instruments and processes will remain uncontaminated.

- Nominal capacity from 800 to 18,000 ICFM
- Nominal driver horsepower from 200 to 3,500

Longo, the FS Elliott distributor for the tri-state area, has been involved with major pump repairs in the oil, power, manufacturing, water and waste water plus the building trades markets. To ensure only the finest support for the FS Elliott products, Longo sales, shop and field service personnel have received in depth training at the FS Elliott Pennsylvania headquarters.

The FS Elliott line of oil free air compressors is a natural extension of Longo's product line and melds quite well with the needs of our customers. The quality level of the compressors is an attractive complement to Longo's long standing quality standards and our ISO 9001 Certification.

From the smallest to the largest compressor models, the FS-Elliott design philosophy is simple and consistent: they combine unyielding reliability with leading-edge technology to ensure that your vital operations will never be interrupted or compromised. This philosophy, along with comprehensive, full life-cycle service, has made FS-Elliott a world leader in engineered air technology.
